Bill - the  
sorry for  
delay in getting  
this info to you.

1-3  
you may have  
correct them in time

DDA REGISTRY

FILE: 45-3

45-3

11 August 1986

NOTE FOR: Deputy Director for Administration

FROM: John M. Ray  
Director of Logistics

SUBJECT: Handicapped Access

1. The Bid Package 4 contractor is currently repaving parking lots and installing new curbs and sidewalks in the Headquarters Compound. The contract drawings for this project were developed in conformance with the requirements of the Federal Property Management Regulations (Subpart 101-19.6) as promulgated by Public Law 90-489. This law is "to insure that certain buildings financed with Federal funds are so designed and constructed as to be accessible to the physically handicapped."

2. The accessibility design standard does call for curb ramps wherever a walk crosses a curb. These have been called for in our contract documents. Unfortunately, the contractor has not complied with this requirement for the first sections of curb he has installed. The General Services Administration is in the process of directing the contractor to rectify his past mistakes and comply with the contract for future installations.

3. As required by the standards, the area designated for handicapped parking (northeast entrance) will have all the required features (proper sized parking spaces, ramps, and automatic doors).
